6th Annual Learning for Dynamics & Control Conference
University of Oxford, July 15-17, 2024

L4DC 2024

We are currently soliciting sponsorship for L4DC 2024. Sponsorship of this event provides an ideal opportunity to support the fifth edition of this event. In addition to a series of invited talks, we also invite paper submissions, where the accepted ones will be published in the Proceedings of Machine Learning Research (PMLR). Our goal is to create a new community of people that thinks rigorously across these disciplines, asks new questions, and develops the foundations of this new scientific area where devices sense and control the physical world.

Sponsorship Benefits

GOLD £ 5000

Four complementary registrations

Logo displayed on website, on printed agenda, at registration desk

1-2 minute teaser presentation

Dedicated table/booth

Logo on participant name tags

Naming rights to one of the events*
